PROFESSIONAL SUMMARY

Results-driven Software Developer specializing in **Data Science, Machine Learning, and Full-Stack Development**, with hands-on experience in building **scalable ML pipelines, predictive models, and data-driven web applications**. Proficient in **Python, SQL, React, and Spring Boot**, with expertise in **data analysis, RESTful APIs, and model deployment**. Strong ability to translate business requirements into actionable insights and production-ready solutions.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, SQL, HTML, CSS

ML/DL Frameworks: PyTorch, TensorFlow, Scikit-learn, OpenCV, Streamlit

Web Technologies: React, Spring Boot, RESTful APIs, JWT Authentication, TailwindCSS

Databases: MySQL, Relational Database Design

Tools: Power BI, Git, Postman, DAX

EXPERIENCE

Project Intern | [Github](#) | [Live](#)

July 2025 – August 2025

Edunet Foundation and Shell India Pvt. Ltd

Remote

- Developed and deployed a **machine learning image classification model** using PyTorch (ResNet-50), achieving **92.5% accuracy** across 30+ classes through **data preprocessing, augmentation, and transfer learning**
- Built an end-to-end **ML pipeline** including **data cleaning, feature extraction, model training, evaluation, and deployment**, reducing manual identification effort by **85%**
- Designed an interactive **Streamlit web application** for real-time predictions with **data visualization, confidence scoring, and performance metrics dashboard**

PROJECTS

Resumind - AI-Powered Resume Analyzer | [GitHub](#) | [Live](#)

March 2025

- Built a full-stack **AI-powered resume analysis platform** using React, TypeScript, and TailwindCSS, enabling **real-time ATS scoring and feedback generation**
- Integrated **LLM-based NLP processing** for keyword extraction, resume parsing, and optimization recommendations
- Developed secure **PDF processing pipeline** and cloud storage integration for scalable document handling

Linklytics - Enterprise URL Shortener Platform | [GitHub](#) | [Live](#)

Apr – May 2025

- Developed a scalable **full-stack web application** using React and Spring Boot with **RESTful APIs and JWT authentication**
- Implemented **data analytics dashboard** to track user behavior, click-through rates, and geographic insights
- Optimized **MySQL database queries** for faster data retrieval and improved application performance

Power BI Election Analytics Dashboard | [GitHub](#) | [Live](#)

May – May 2025

- Designed an interactive **data visualization dashboard** using Power BI and DAX to analyze **large-scale election datasets**
- Performed **data cleaning, transformation, and modeling** to generate KPIs such as vote share, turnout, and margins
- Enabled **drill-down analysis** from national to constituency level for actionable insights

Movie Recommendation System | [GitHub](#) | [Live](#)

July – July 2025

- Developed a **machine learning recommendation system** using Scikit-learn and cosine similarity on 5,000+ records
- Performed **data preprocessing and feature engineering** to improve recommendation accuracy
- Integrated external APIs for dynamic content retrieval and built a **Streamlit interface for user interaction**

Learning Management System equipped with AI [Figuring Out] | [GitHub](#)

July – July 2025

- **Engineered a comprehensive Learning Management System (LMS)** utilizing a microservices-inspired architecture with React/Next.js, Node.js, and PostgreSQL (Supabase) and supporting real-time chat (Socket.IO)
- **Developed an AI-driven curriculum engine** using LangChain and CopilotKit to dynamically generate personalized lessons, slide presentations, and interactive quizzes for students.

EDUCATION

Bachelor of Technology in Computer Science (AI and Machine Learning)	Abdul Kalam Technical University, Lucknow	August 2022 – July 2026	CGPA: 8.5/10
Intermediate	Nirmala Convent Inter College, Lucknow	2022	%age: 88
Matriculation	Nirmala Convent Inter College, Lucknow	2020	%age: 94
